Crafting a future for children in need

more at www.childaid.net

Engaged for deprived children – for a better future.

- Our motivation:** We want to give deprived children access to education to enable them to build their own future.
- Who we are:** We are a growing, active and professional team, mostly composed of volunteers.
- Our focus:** Our first projects are in the foothills of the Himalayas, in poor regions of Northeast India, Nepal and Laos.
- How we work:** In cooperation with local partners we implement model projects and personally accompany them for success.
- Please help us:** We need your support to open the gate to a better future for many poor kids and needy youngsters.

Still a large number of children world-wide remains hungry, has to live in dismal environments and suffers from avoidable diseases.

Motivation

Millions of children are exploited in child labour and do not have a real childhood.

Motivation

They do not have a chance to live a decent future, only because they were born in the wrong place.

Motivation

Studies document: Every Euro invested into education brings multiple returns. Education is an effective weapon against poverty and disease.

Motivation

All governments have promised to give access to quality primary school education to all girls and boys free of charge until 2015.

Motivation

UN Millennium Development Goals for 2015:

2. Achieve universal primary education

Ensure that all boys and girls complete a full course of primary schooling

However: Achieving this goal is far off. Officially, more than 50 Mio children do not attend school. Shadow numbers may be double.

Motivation

As a charity for children and young people, we try to foster sustainable structural change by giving young people access to education.

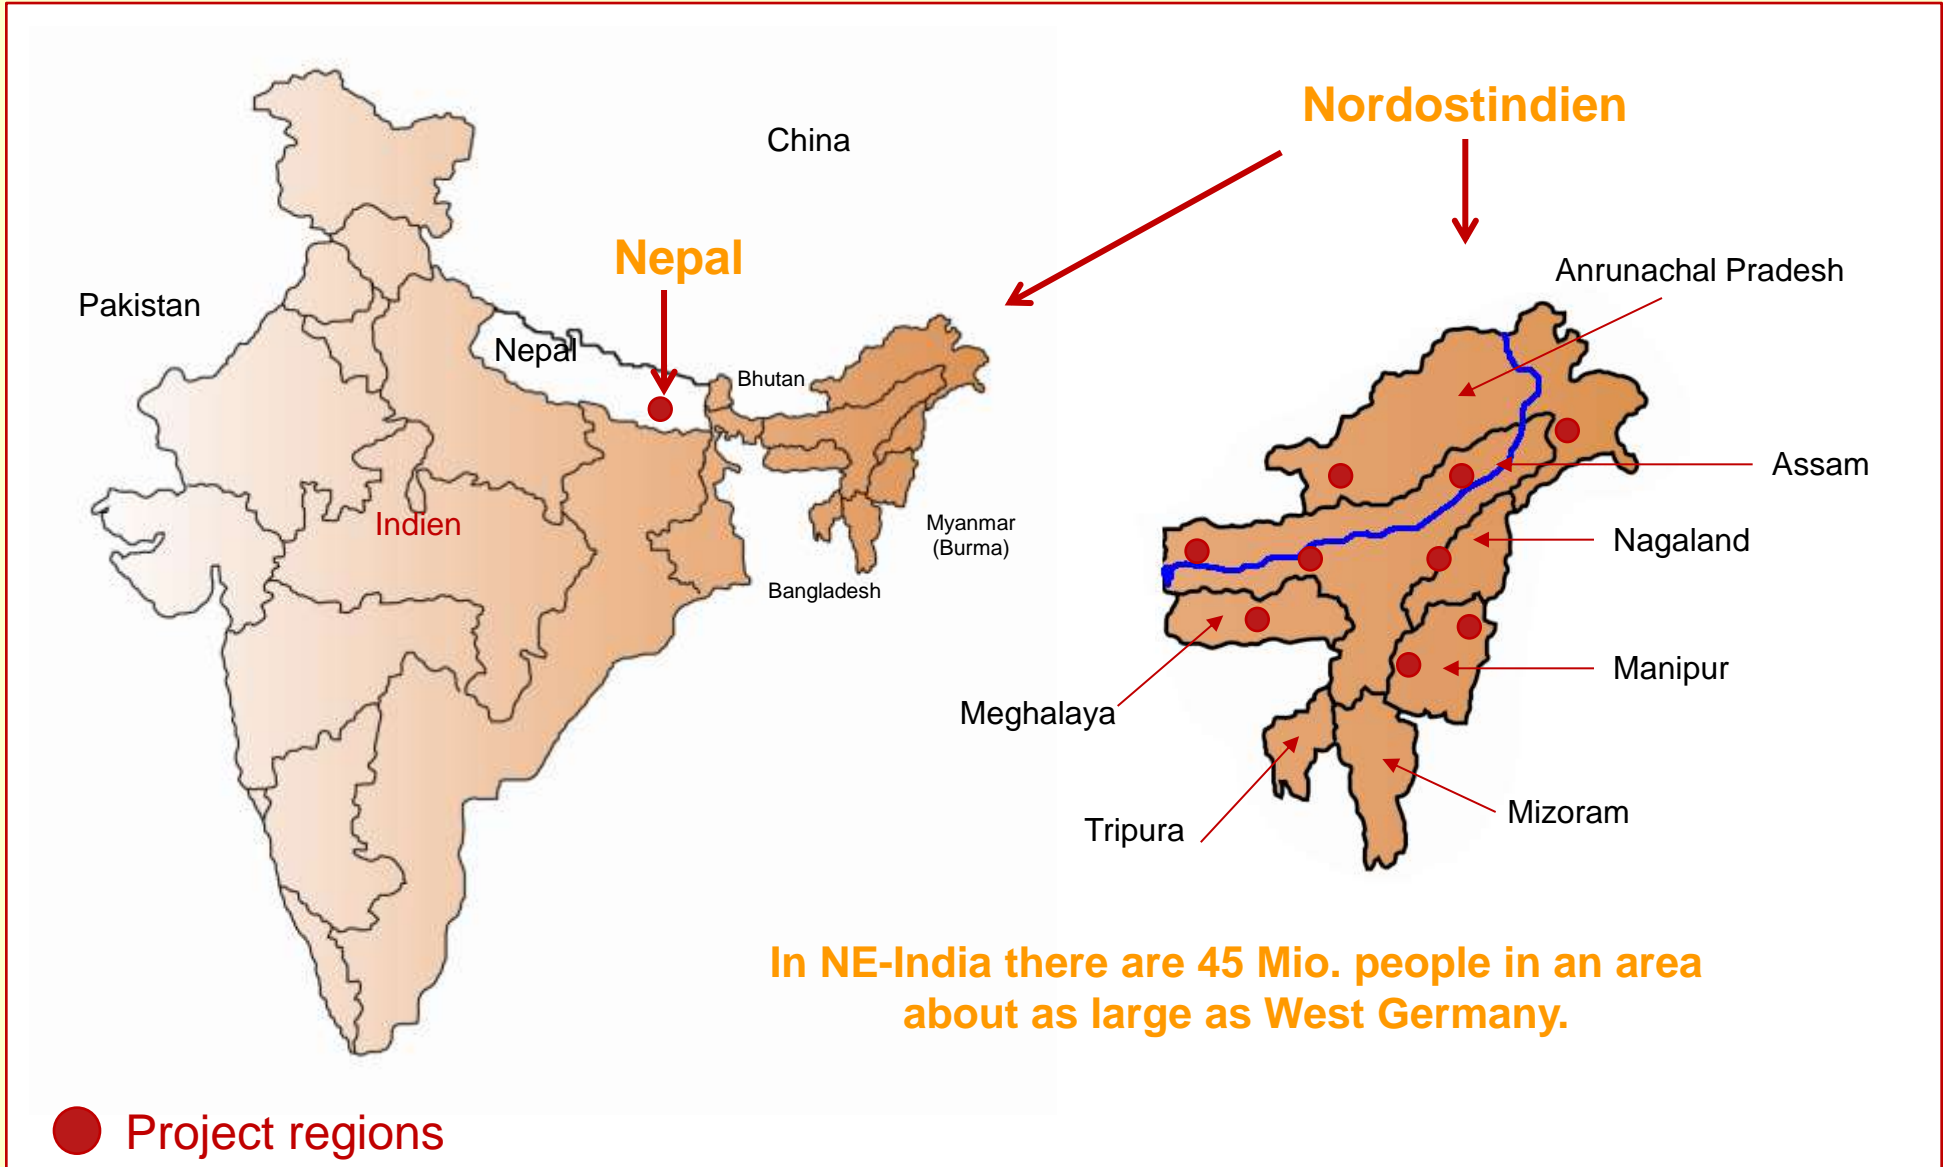

Foundation

- We are engaged for a better future for deprived children in Southeast-Asia, the poorest of the poor.
- In our projects we work in close partnership with the people in the 'South' aligned with reliable local NGOs.
- Our support is designed to be structural and professional. We intend to drive measurable, sustainable improvements.

Our first project regions are in the foothills of the Himalaya, in Northeast India, Nepal and Laos. In Myanmar and Bangladesh we are preparing to start programs with partners.

Region

These regions have breathtaking landscapes and areas of untouched natural beauty.

Region

Over thousands of years, a wealth of cultures has developed there.

Region

The traditional agricultural techniques are tea, paddy and slash&burn in the mountains, not sufficient to feed a growing population.

Region

Many special skills, deeply rooted family bonds, and the support networks of the villages have been preserved over hundreds of years.

Region

Daily life is frequently primitive, tough manual work without support from machines or animals.

Region

In rural areas, there is almost no supply of electricity, water or medical support.

Region

Road infrastructure is scarce, public transport over-crowded.

Region

Climate change and cutting of forests enhance negative impact of natural powers.

Region

**60-90 % of the people cannot read nor write.
In the rural areas there is no school for many children.**

Region

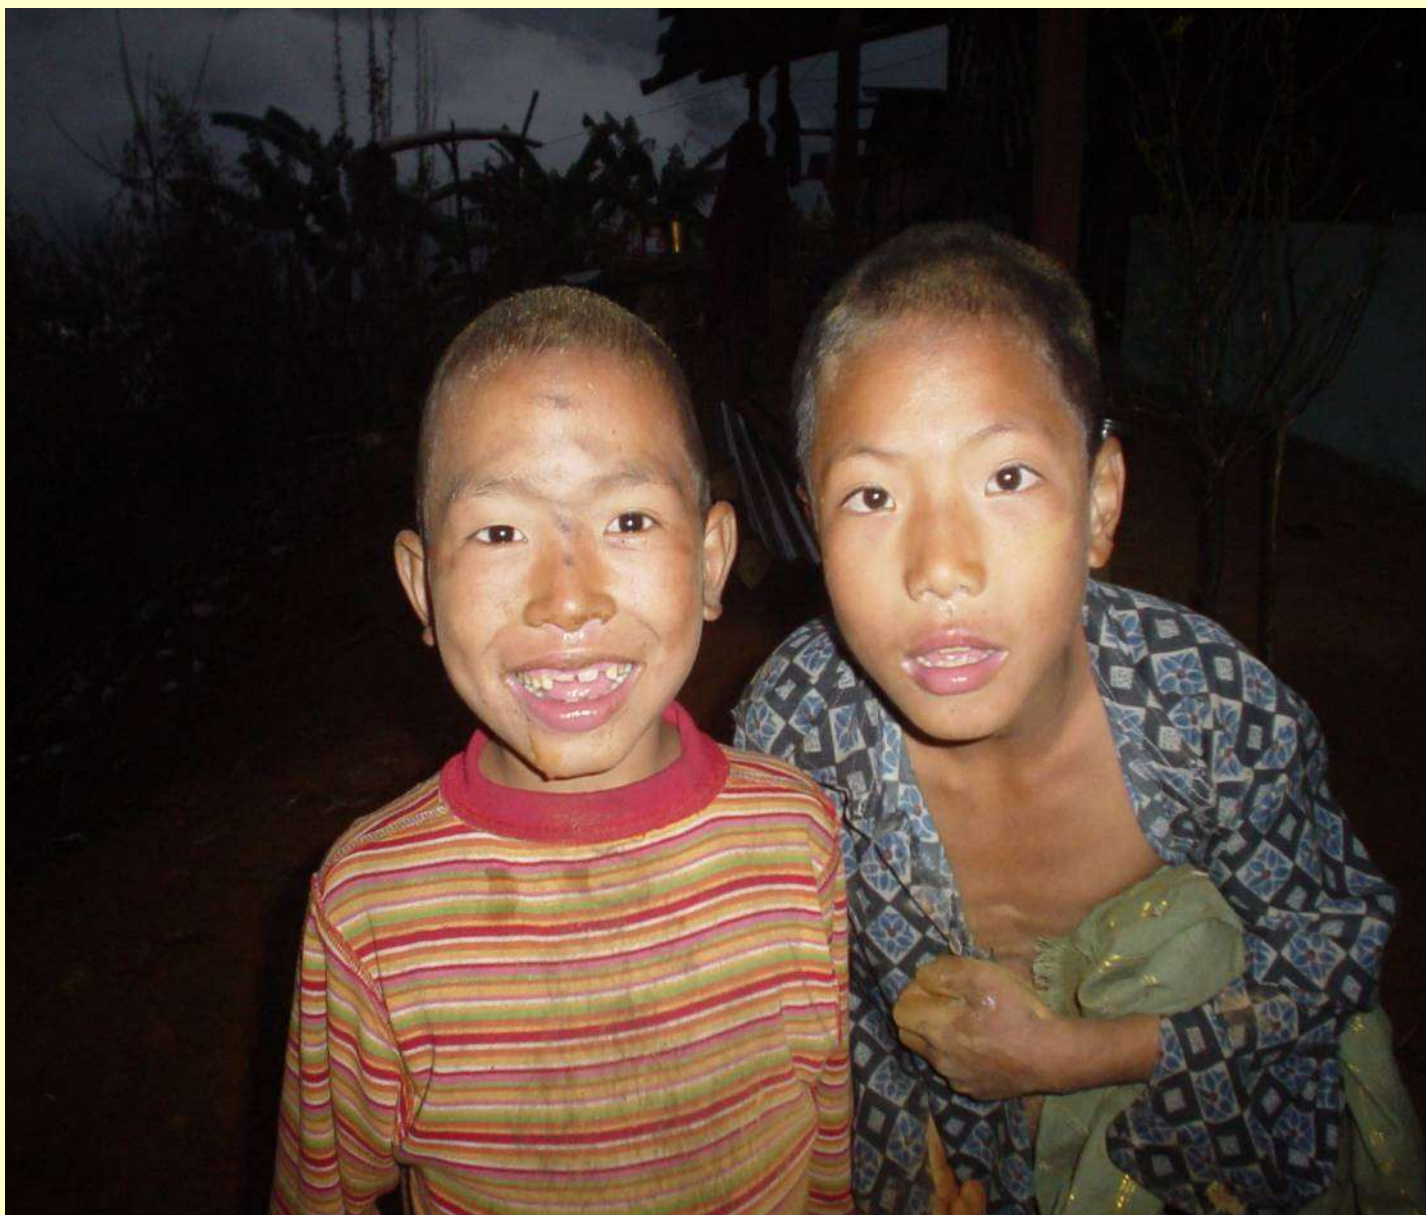

Poverty leads to migration into the cities of families, but also of many children and adolescents alone. Many end up in the slums.

Region

The dismal situation of the children in the Northeast with high child mortality has motivated us to start our supporting projects there.

Region

What can be done to bridge the gap between the poor and the rich?

Projects

Our response: we focus on the education of children, youth and young adults, who otherwise would not have access to schools.

Projects

Our projects supplement the governmental educational system with focused offerings for all age groups. We now reach almost 30.000 young people

Age	Place	No.	Target group	Objective	Method
3-6	Arunachal P. (NE-India)	1200	Left alone tribal children	Development of senses and health	Montessori-creches, day care
6-12	Assam, Meghal. (NE-India)	500	Deprived children in rural areas, child labour	Motivation to learn, start of primary school education	Bridge courses to prepare for mainstreaming
6-14	Assam (NE-India)	6700	Refugee kids, minorities	Motivate to learn, primary school education	Bridge courses to prepare for mainstreaming
6-14	Bhandar (Nepal)	6000	Village kids without access to government schools	Basic education	Start and operation of regular schools
4-20	Guwahati (NE-India)	2000	Street kids, unemployed youth	Mainstream Vocational training	Neighborhood-schools, vocational training, homes
10-12	Tamenglong (NE-India)	150	Drop outs, non-starters	Reach level of class 5-6, form personality	1-year intensive course, then mainstream
13-20	Assam, Manipur, AP (NE-India)	8700	Youth without complete primary school education	Basic education up to class 6	Evening classes with special curricula
16-18	Assam, Manipur (NE-India)	500	Government students not prepared for exam	Pass Matric Exam	Matric exam courses
Ab 16	Assam, AP (NE-India)	1800	Unemployed village youth	Vocational training and income generation.	Vocational training, forming of cooperatives
Famil	Assam (NE-India), Laos	1100	Poor rural families	Start family tea garden or silk production	Training, micro credits cooperatives

All our projects depend upon and foster the participation of the village communities. We invest into people, not buildings.

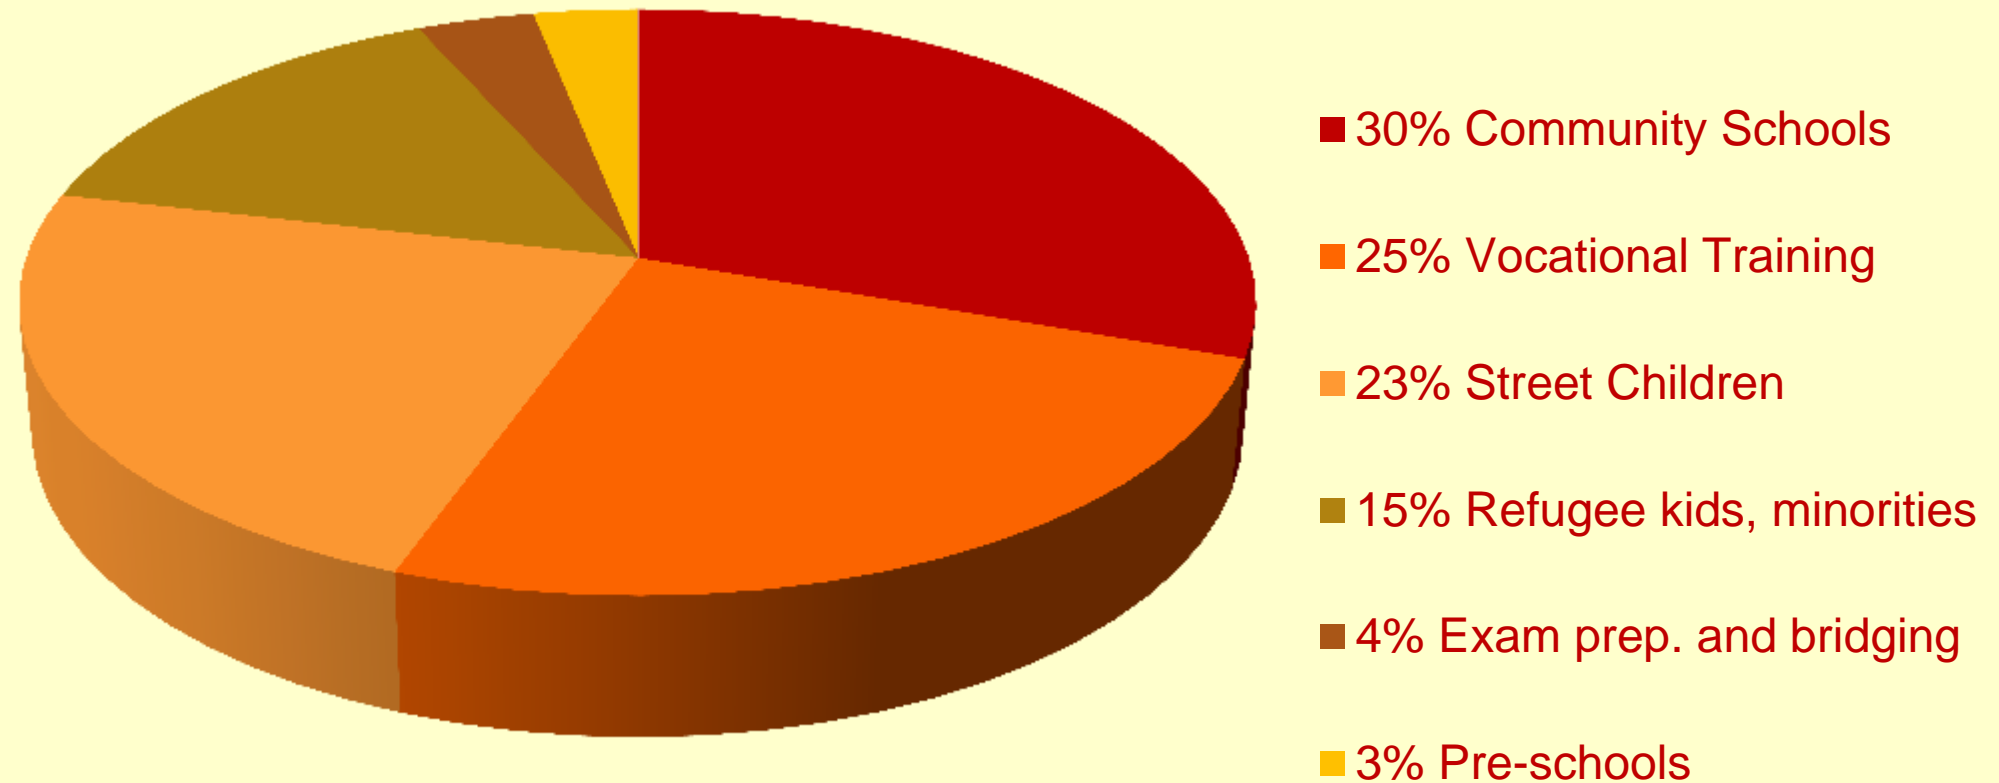

Projects

2014 we have been able to invest 1.000.000 Euro into projects. With this we reach about 30.000 children in about 400 villages directly.

Projects

Project budgets 2014 – 1000.000 €

* Cost of 5 % are covered by founders and friends

In approx. 225 community schools, about 8700 youths learn to read, write and calculate and also develop skills for a better survival in the villages.

Projects

One-year intensive courses with 20-25 boys and 20-25 girls bridge the gap to the normal school system.

Projects

Learning a vocational skill in one of our 80 non-formal centers helps annually more than 1500 young people to start earning a family income.

Projects

About 150 teachers help more than 6700 kids born in refugee camps or poor villages to bridge the gap to the normal school system.

Projects

In day care centers we support neglected tribal children in the mountains of Arunachal Pradesh for an improved start into life.

Projects

220 orphan children have found a new family in the homes of Snehalaya and are being prepared for a good future.

Projects

In 35 neighbourhood schools we educate 1500 children from the slum dwellings, provide an extra meal and a preparation for a better future.

Projects

We aim to support the development of a new generation of leaders for the Northeast.

Projects

**We are a young but professional organization, mostly of volunteers.
A qualified supervisory board supports our work.**

Foundation

Approx. 150 volunteers with various professional backgrounds.

Bischof Adrian van Luyn **K-H.Floether** ehem. Accenture **Dr. T. Gauly** Gauly-Dittrich **H. Holtermann** ehem. Vorstand **W. Kirsch** DZ Bank

Dr. Kreuzer Fundr.-Akademie **Prof. Radermacher** Club of Rome **C. Richter** GIZ **E. Sättele** ehem. E&Y **M. Steeb** AGEH

10 competent and well networked members of the supervisory board.

Presently 11 experienced local organizations for the implementation of the programs

**We are moving forward dynamically.
We receive a lot of support from various sources.**

Foundation

- **150volunteers in Germany**
- **500-700 daily visitors on webpage**
- **Every year Several thousand participants in events**
- **50 articles annually in newspapers**
- **elected as best NGO in Hessen**

Lecture Series *For a better future of Children*

Karmariders *Innovatives Fundraising*

**many broadcasts
*on National TV***

While still young, our foundation can report a nice development.

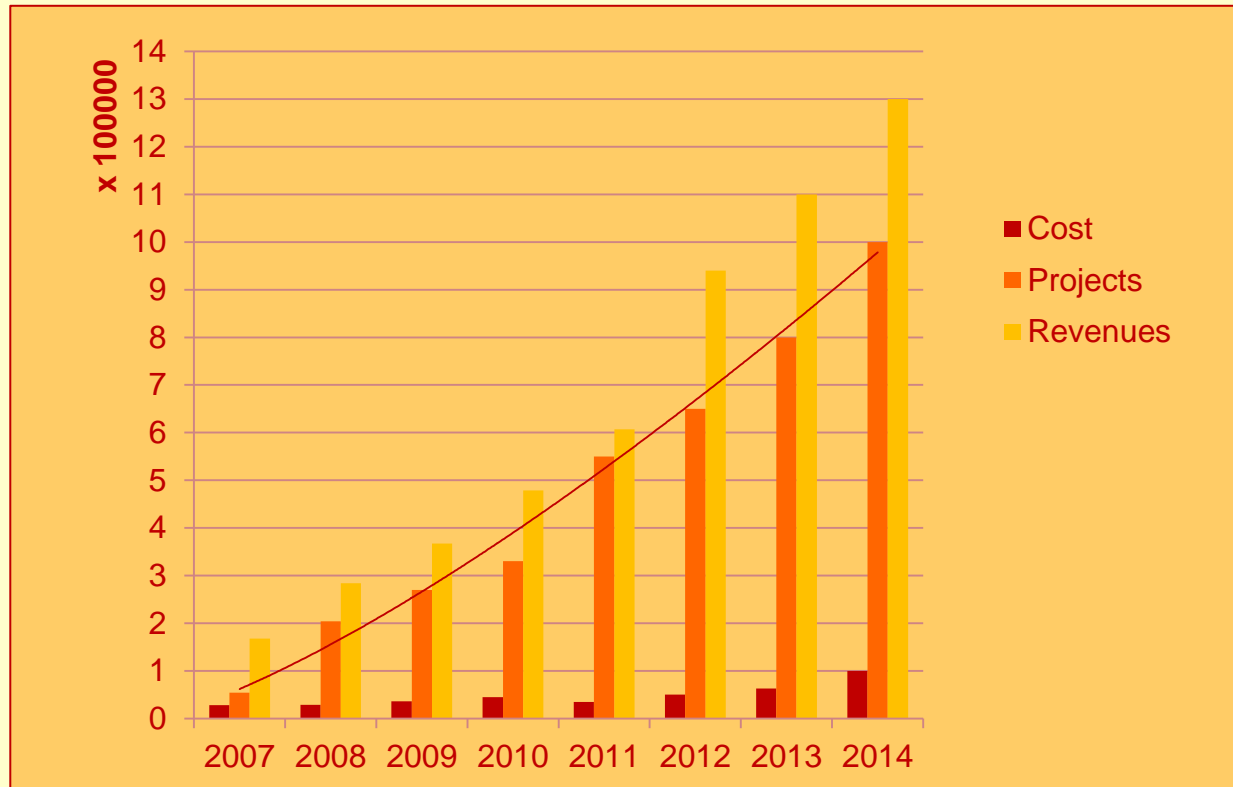

Managing Board

- Dr. Brigitta Cladders
- Dr. Martin Kasper
- Dr. Ute Nieschalk

Status

- Charitable foundation
- Starting capital 500k€
- Approved by state

Many volunteers help to generate support for our projects.

Foundation

For selected young people we also offer the opportunity to work in the projects after good preparation with continuous mentoring.

Foundation

Well renowned personalities support and recommend our organization.

Foundation

„The self-help concepts are an ideal fit with our cooperative structures Childaid Network deserves your trust.“

Prof. Dr. Bernhard Vogel
retired prime minister

Wolfgang Kirsch
CEO DZ Bank

„I am engaged for the work of Childaid Network. The foundation has developed good approaches in direct cooperation with the target groups and implements them efficiently.“

Dr. H.-J. Preuß
Managing Director GIZ

„The founders connect a large group of people that can get things moving. I am happy to be part of that network and will continue my support.“

„I have observed how Childaid Network has been able to give thousands of deprived children access to education and thus helped them to build their own future.“

Karl Kardinal Lehmann
Bishop of Mainz

„I support Childaid Network as the team is effective and efficient in implementing excellent concepts for the eradication of poverty.“

Prof. Dr. Radermacher
Club of Rome

CSR Partnerships with companies and networks bring contacts and expertise and reduce our cost.

Partnerships supplement our engagement in the projects and increase our reach.

Foundation

Ärzte für die Dritte Welt

The state of Hessen has awarded us the label of „best charitable foundation“ in 2011.

Foundation

„We have honored the charitable foundation Childaid Network with the prize of best foundation. What convinced us in particular were the concepts and the implementation of the projects.

The foundation puts special focus on sustainable long-term changes, which help the children to grow up to adults that can support their own families.

In doing this they concentrate on the most needy areas, the poorest of the poor, girls and a structural build-up of access to education. Special efforts are invested into building networks and exploiting synergies with others.“

Landesregierung Hessen (state government of Hessen)

Every Euro makes a difference. Without deductions we invest all donations into the projects for the children.

- For 2 Euro we can buy a life-saving mosquito net for an orphan kid.
- 5 Euro are sufficient for the material for a school uniform, tailored by the mothers.
- With 20 Euro we can pay for a class set of exercise books and pencils.
- 50 Euro are a valuable contribution for the extension of a school library.
- 100 Euro finance a day of further education and related travel for a group of teachers.
- 200 Euro is the cost for the tools for a small start-up entrepreneur.
- With 1000 Euro we can install a complete computer workplace which allows 20 young people per year to acquire relevant skills for a job.

Every occasion for celebrations can also be a trigger for help.

The money for a bouquet of flowers or a tie, which we do not really need for life, can save lives.

Why don't you put access to education for kids onto your next birthday wishlist?

Networking builds success!

Help

Do you have an idea for a fundraising activity?

We have many success stories, where individuals or groups have raised nice funds for dedicated projects.

These activities can be lots of fun.

Contact us for ideas and support.

Do you have some spare time or talent to invest into a good cause? We look for volunteers and pro bono support.

We are a nice team of friends and volunteers.

Do you want to join us for fun, impact and a good cause?

We appreciate all sorts of help depending on your talent and the amount of time you can contribute.

Presently extra support for administration, translation, writing, donor communication and organization of events is most urgent.

**Our partners depend on regular and reliable support.
Please join our circle of regular donors and adopt a project.**

Help

- 35 Euro per month are sufficient for the complete support and education of an orphan in one of our homes.
- 50 Euro per month support the formal vocational training of a young person.
- 100 Euro per month can finance a community school teacher and the learning material for his or her class.
- 150 Euro per month cover all costs for a complete preschool with 2-3 specialist nurses and an extra daily meal for up to 70 kids.

Your donation is effective

All donations are invested into projects without deductions.

Sustainable projects for the poorest of the poor

We work professionally and measure the results.

Qualified partnerships form the basis for success

We partner with excellent organizations locally and in the project areas.

Certified, supervised, award winning

Our board, the foundation regulatory bodies and certified accountants supervise us. Independent „charity watch“ recommends our organization and projects.

The tribal children of South East Asia thank you for your commitment.
